

PHYSICS

Current Electricity

Autumn Workshops 2018

The Autumn Workshops are designed to:

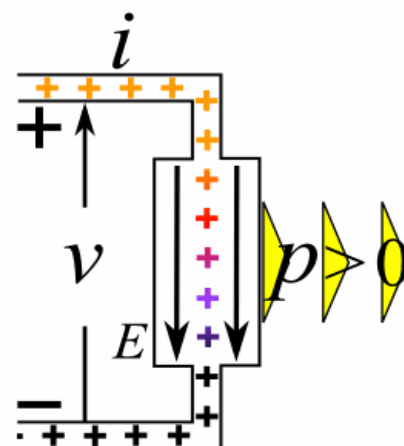

- Enable teachers enhance the students' understanding of Electric Current
- Give teachers the opportunity to engage in some relevant hands-on activities including listed experiments and 'explaining electricity' from Virtual Physics Laboratory
- Provide a forum for teachers to share and discuss the ideas encountered
- Create an environment whereby teachers can learn from each other
- Promote an inquiry based approach to teaching and learning
- Include teacher discussion on how active learning methodologies can be used to inform the implementation of a project-based learning approach with a focus on current electricity

Dates and venues are given below. The workshops take place from 7.00 to 9.00 p.m. each evening

Date		Venue
