

Ideas and Approaches for Transition Year Science

This workshop will provide support for non-specialists in physics and chemistry at all levels and particularly the teaching of Transition Year Science. It will help you to incorporate recent policy changes into your classroom practice.

It will provide:

- Hands-on experience with scientific inquiry based activities
- Strategies to identify and use student misconceptions in your teaching, learning and assessment.
- Digital technology resources will be provided to support teachers embed digital technologies into their practice
- 'Take away' equipment and a suite of resources to enhance engagement of students with scientific enquiry
